

Bundesministerium  
für Gesundheit

# NTDs within the Global Health Strategy of the German Federal Government

Paul Zubeil, Deputy Director-General European and International Health Politics

# German contributions to the elimination of NTDs according to the Global Health Strategy

- Targeted support for the inclusion of NTDs in multilateral strategies and international forums
- Support for ESPEN
- Support for product-oriented research and development to fight NTDs
- Support for better treatments for patients who are infected with NTDs

# Thank you for your attention!
